Parratusan, Sigumpar, Toba, Sumatera Utara, 22381, Indonesia | +62 813 6117 5877

A 6th semester Information Technology student at Del Institute of Technology with a GPA of 3.32/4.00. Experienced in developing web applications using Laravel, Flask, React, and Golang, as well as mobile applications using Flutter and SwiftUI.

Have a solid understanding of programming languages such as Python, Java, PHP, JavaScript, Dart, and Swift, with a strong focus on logical thinking and structured problem-solving.

Comfortable working both independently and in teams, with good time management and problem-solving skills.

PROJECT

Rancang Bangun Website Roiyall Coffee

Jan – Jul 2024

Developer

- Developed web applications using the Laravel framework following MVC architecture.
- Implemented CRUD functionality, user authentication, and data validation.
- Designed responsive user interfaces using Bootstrap to improve user experience.

System Event Organizer

Nov – Dec 2024

Developer

- Developed using Java (OOP) and Java Swing/JavaFX for desktop UI.
- Implemented CRUD features for clients, events, and schedules.
- Integrated database system (MySQL/SQL) for data storage.

Pengembangan Website Kawal-PTN

Jan – Jun 2025

Developer

- Developed a web platform for student exam preparation and information access.
- Developed the frontend using React.js for a responsive and interactive user interface.
- Built backend services using Golang to handle application logic and data processing.

Calorizz – Calorie Tracker iOS App

Jun – Jul 2025

Developer

- Developed an iOS application using SwiftUI.
- Integrated CoreML to enable food detection and calorie estimation features.
- Implemented clean architecture and structured state management for maintainable code.

S'MART – Weather iOS App Tracker

Jun – Jul 2025

Developer

- Developed an iOS weather application using SwiftUI.
- Integrated real-time weather APIs to provide up-to-date weather information.
- Implemented location-based weather tracking to deliver localized forecasts.

Cyber Threat Detection

Oct – Dec 2025

Developer

- Designed and built a Deep Neural Network (DNN/MLP) for cyber attack classification.
- Deployed the machine learning model via a Flask RESTful API.
- Implemented an interactive and responsive frontend using React and Tailwind CSS.

Simple E-commerce Website

Oct – Dec 2025

Developer

- Developed product management features using Laravel with CRUD operations.
- Implemented secure user authentication and login system.
- Applied MVC architectural concepts to ensure clean and maintainable code.

CekPadi – Rice Leaf Diseases Detection using Mobile App

Sept 2025 – Present

Developer

- Built a mobile-based rice leaf disease classification system using the EfficientNetV2 model.
- Classified five types of rice leaf diseases and healthy leaves from uploaded or captured images.
- Deployed the deep learning model using TensorFlow Lite for on-device mobile inference.

EDUCATION

SMA N 1 Laguboti – Toba, Sumatera Utara

Jul 2020 – May 2023

Senior High School, Natural Science

GPA 89.67 of 100

Relevant Coursework: Mathematics, Physics, Biology, Chemical, Informatics.

Institut Teknologi Del – Toba, Sumatera Utara

Aug 2023 – Present

Diploma (D3) in Information Technology

GPA 3.32 of 4.00

Relevant Coursework: Web Programming, Mobile Application Development, Database System, Software Security, Introduction to Artificial Intelligence.

ORGANIZATION

Himpunan Mahasiswa Teknologi Informasi (HIMATIF)

Jan 2024 – Present

Member of the Documentation Division

- Documented HIMATIF events through structured photo, video, and written reports.
- Collaborated with other divisions to coordinate event operations and publications.
- Supported media and documentation needs for internal and external organizational activities.

Del Software Development Club (DSDC)

Dec 2023 – Present

Web Developer

- Collaborated in a team to develop websites from planning to deployment stages.
- Gained hands-on experience using programming languages and relevant web frameworks.
- Contributed to building interactive web features and ensuring UI/UX quality and functionality.

COURSES/BOOTCAMPS/TRAINING

iOS Development

Batam, Kepulauan Riau, Indonesia

Apple Developer Academy @ Infinite Learning

Jun – Jul 2025

- Collaborated in team-based challenges and project discussions.
- Learned and applied iOS development fundamentals, SwiftUI components, and basic application architecture through hands-on projects.
- Developed Calorizz, an iOS calorie tracking application featuring camera-based food scanning and categorized food lists with calorie information.

Cybersecurity Trainee

Online

Digitalent Komdigi

Jul – Nov 2025

- Learned cybersecurity fundamentals, threat awareness, and risk management.
- Gained understanding of incident detection and incident response concepts.
- Studied risk management, asset protection, and the implementation of security controls.

CERTIFICATES

Apple Developer Academy @ Infinite Learning – Foundation Program

Jul 2025

Apple Developer Academy @ Infinite Learning

Cybersecurity Trainee

Aug 2023

Digitalent Kominfo

INTRO TO PYTHON PROGRAMMING

Sept 2025

Coding Studio

Mahir Membuat Website dengan Laravel

Jan 2026

Coding Studio

LANGUAGES

- **Bahasa Indonesia** (Native), **English** (Intermediate).
